

District 6 Fact Sheet

Serving Fresno, Kern, Kings, Madera and Tulare Counties

State Route 99 White Lane Auxiliary

Kern County

Project Purpose:

Traffic on State Route 99 in Kern County at the White Lane Interchange experiences heavy ques during peak hours. The auxiliary lane project will facilitate peak hour traffic that backs up onto State Route 99, which will reduce traffic congestion in this area.

Description:

This project will improve the southbound off-ramp at State Route 99 and White Lane Interchange in Kern County. This includes adding a southbound auxiliary lane and shoulder widening on State Route 99. The southbound White Lane exit ramp/off-ramp will be reconstructed. There are three projects in this area at White Lane and State Route 99. It is our intent to coordinate construction of the Auxiliary Lane Project and a City of Bakersfield Interchange improvement project at the same time to minimize delays and confusion to the traveling public.

Construction Cost: \$2.4 million

Schedule: Construction schedules are dependant on the weather and are subject to change.

Construction Begin: Spring 2004

Construction Begin: Spring 2005

Funding Sources:

State Highway Operation and Protection Program (SHOPP)

Local monies for Right of Way Acquisition provided by The City of Bakersfield.

Agency Responsibilities:

Department of Transportation (Caltrans)

City of Bakerfield
